

Title	Data Platform Engineer
Business	Managed Services – Technology
Reports to	Director, Technology Development

Advocate is an advisory and managed services company of IT business experts and data scientists dedicated to helping companies optimize their technology infrastructure. Utilizing marketplace intelligence, decision analytics and acceleration capabilities, Advocate partners with its clients in innovative ways to save money, improve performance and deliver crucial insight to help them make the best possible decisions related to their technology investments. *That’s why we work, Smarter. Together.*

We are seeking a **Data Platform Engineer** to join our Managed Services – **Technology Team**. As a member of the Technology Team, the Data Platform Engineer will be responsible for managing and coordinating the day-to-day activities of the data model. This includes building and operating systems to consolidate internal and external data sources. Delivering on database enhancement and break/fix activities. In addition, the Data Platform Engineer will serve as the data warehouse SME. Facilitating data access for new and ongoing analytical reporting and machine learning, providing needed transformations, driving good data governance and security practices, and supporting power end-users.

RESPONSIBILITIES

- Support our ETL and data ingestion architecture
- Perform required user administration activities
- Troubleshoot database configuration, product, or performance issues
- Identify requirements and develop new tools and database functionality including tables, processes, and views
- Help to enable Advocate resources to access data through reliable and scalable methods
- Act as the data warehouse Subject Matter Expert (SME) leading and supporting improvement opportunities
- Own and maintain a strong security and data governance practice, ensuring data reliability, accuracy, and end to end data protection
- Supports and train internal teams in database and BI reporting usage
- Build relationships and practice effective collaboration within the Technology and other Advocate teams
- Drive areas for process improvement

SKILLS

- Comfortable working in a fast-paced, collaborative, team environment
- Maintains an enthusiastic, positive, constructive attitude in the workplace
- Analytical aptitude and curiosity to learn new things at a fast pace
- Ability to work autonomously given fundamental priorities and responsibilities
- Willingness to think outside of the box and push yourself beyond your typical comfort zone
- Strong oral and written communication skills
- Keen attention to detail
- High self-confidence with the ability to take and apply constructive feedback
- Advanced analytical and big data analysis skills
- An understanding of IT Infrastructure (Servers, Databases, Storage, Network etc.)

QUALIFICATIONS

- Four-year college degree in computer science or related engineering degree
- Microsoft SQL Server - development and administration duties (including database triggers, indexes, views, stored procedures, functions, and ETL)
- T-SQL on Microsoft SQL Server
- Microsoft Power BI or Tableau
- Microsoft Office with advanced proficiency in Excel (formulas, pivot tables, v-lookups, etc.)
- VB.NET
- .Net Framework
- JavaScript
- Python
- Microsoft Azure cloud infrastructure environment
- MS Power Automate
- MS Power Query
- MS Access (Access VBA)
- Experience working with external / 3rd party VPN connections
- HTML, CSS, PHP, JavaScript (*a plus*)
- R (*a plus*)
- Telecommunications experience a plus
- IT certifications a plus, but not required
- Must provide Proof of Right to Work in the United States on the I9 Form

OPPORTUNITIES

- Join a company named to the Inc. 5000 list of Fastest Growing Companies for eleven consecutive years.
- Named one of the Top 150 Workplaces by The Atlanta Journal-Constitution.
- Work daily with Fortune 500 Global Clients.
- Opportunity for rapid career advancement.
- Client facing position with the opportunity to make a direct impact on business growth, practice innovation and talent development.

REWARDS AND BENEFITS

- Competitive base pay
- Incentive bonus plan
- Industry Competitive Health and Welfare Benefits
- Company matched 401(k) with immediate vesting
- Two paid days off for community service
- Flexible work arrangement to support a good work-life balance
- Professional development with a long-term career path
